

SYMPOSIUM ON SIMULATION // FOR ARCHITECTURE + URBAN DESIGN

TU DELFT, NETHERLANDS 4TH JUNE 2018

SimAUD2018 includes three days conference and one day pre-conference workshops. The workshops can be attended both by registered conference attendees and by anyone else interested. In both cases, a registration to the workshop(s) is required. No workshop fee applies to registered conference attendees. A small fee applies to the others participants (full fee: \$70 - students fee: \$25), for which there is no refund in case of cancellation after May 1st. To register to the entire conference event, including workshops, please use the QR code or visit: https://goo.gl/MHNN3J . To register only to (one or more) workshops, please visit: https://goo.gl/4qyTZr

8:30 - 9:00	9:00 - 10:30	10:30 - 11:00	11:00 - 12:30	12:30 - 13:30	13:30 - 15:00	15:00 - 15:30	15:30 - 17:00	17:00
DP REGISTRATION	O1 Adaptive Second Skins Mostafa Atwa & Ahmed Fayed O2 Advanced Optimization Technology for Generative Building Design Alberto Clarich O6 Immersive Simulation Representation through Virtual Reality Amber Bartosh O7 Intuitive Design Environments through Virtual Reality and Robotic Fabrication Serdar Aşut & Arno Freeke O9 Multimaterial Robotic Assembly Sina Mostafavi, Henriette Bier, Benjamin Kemper & Yu-Chou Chiang 10 Network analysis based dynamic urban simulation in Grasshopper Reinhard Koenig, Martin Bielik & Sven Schneider 11 Next generation parametric design with Packhunt.io Jeroen Coenders & Anke Rolvink							
	12 Open Collaborative Design, Simulation & Analysis Flows Dimitrie Stefanescu, Paul Poinet & Giovanni Betti							
	O8 Morphogenetic Fluid Dynamics — Designing with CFD Angelos Chronis				O3 Analyzing Solar and Daylighting Access in Urban Areas Raphaël Compagnon & Christina Chatzipoulka			
	13 Practical Python for Building Performance Analysis Clayton Miller				O4 Building Physics Modeling Ruud Börger			
	15 SMART Hospital Architecture, the development of a data driven simulation model Johan van der Zwart, Tor Åsmund Evjen, Domique Brodbeck & Nirit Pilosof				05 How I Learned to Stop Worrying and Love Uncertainty Parag Rastogi			
WORKSHOP REG	16 Urban Interrelationalism: City Prototypes Based on Programmed Regulations Elisa Pozo Menéndez & Sergio del Castillo Tello				14 Simulating Circadian Effects Siobhan Rockcastle, Marilyne Andersen, Martine Knoop, Aicha Diakite, Frederic Rudawski & Jon Sargent
